REGISTRATION OF LITTERS BORN IN BERMUDA

PLEASE READ THE FOLLOWING NOTES BEFORE COMPLETING THIS APPLICATION

1. All applicable sections of the form must be completed in ink or by typewriter, except signatures which must be signed in ink.
2. The Bermuda Kennel Club will not accept an application to register a litter when the offspring are the result of any mating between father and daughter, mother and son or brother and sister, save in exceptional circumstances or for scientifically proven welfare reasons.
3. If either the dam or sire are born outside of Bermuda the foreign Registration **must not** carry a breeding restriction (endorsement). Any breeding endorsement will need to be removed before registration of a litter can take place. In most cases it will be the breeder who has placed the endorsement, and who will therefore be the person empowered to remove it.
4. **DAM OF THE LITTER:**
 - (a) Must not have already whelped five litters
 - (b) Must be registered with the Club in the name of the person signing the application for registration as owner or lessee at the time of birth of the litter
 - (c) Must not have previously whelped a litter within a twelve month period prior to whelping the current litter unless supported by veterinary evidence confirming the suitability of the bitch
 - (d) The owner of the dam must have been granted a Breeder's Licence by the Bermuda Government.
5. **SIRE OF THE LITTER:**
 - (a) If owned or leased by a resident of Bermuda, the sire must be registered with the Club in the name of the person certifying the service of the dam.
 - (b) If owned by a resident of any other country, the sire must be registered in a stud book or record recognized by the Club, in the name of the person certifying the service, and a photostat copy of the dog's registration certificate showing such ownership, together with a certified copy of the known pedigree of the dog to a minimum of three generations, with an official registration number for each and every one of the fourteen immediate ancestors, issued by a recognized stud book or record, must accompany the application for registration of the litter. BREEDERS PEDIGREES, OR PEDIGREES PURCHASED FROM PEDIGREE SERVICES ARE **NOT** ACCEPTABLE
 - (c) If the owner or lessee of the sire of a litter shall refuse, fail or neglect to sign where required, an application for registration of a litter when requested to do so by the owner of the dam at the time of birth of the litter, the Board shall have the power to authorize the registration of the litter through the Registration Officer if it is satisfied that the owner of the sire has no justifiable reason for withholding his signature.
6. **AGE OF DAM/SIRE:** No litter out of a dam under twelve (12) months or over eight (8) years of age at the time of mating unless the application is supported by veterinary evidence confirming the suitability of the bitch involved in the proposed whelping. No litter out of a sire under seven (7) months or over twelve years of age at the time of mating, will be registered unless the application for registration is accompanied by an affidavit or evidence which shall prove the facts set out in the application for registration of a litter to the satisfaction of the Registration Officer.
7. **ARTIFICIAL INSEMINATION:** Service of the dam shall be taken to mean artificial as well as natural insemination.
8. **MATINGS:** No litter is eligible for registration if the dam of the litter was mated to two or more stud dogs during the period of three months immediately preceding the birth of the litter.
9. **CANCELLATION OF REGISTRATION:** The Board of Governors has the power to cancel or to prohibit the registration of this litter if it has reason to believe that the litter is not pure-bred, or that any part of the application contains false information, false representation or information calculated to mislead, or that there has been a failure to disclose all relevant information.
10. **Application for registration of a litter** born in Bermuda must be made within 12 months from the date of birth of the litter. A late application may be considered after 12 months for a late penalty fee, to be decided by the Board of Directors, for up to an additional 6 months.
11. **REGISTRATION OF AN INDIVIDUAL DOG:** Where a litter has been registered, no dog out of that litter may be individually registered after **TWO** years from the date of birth. A late application may be considered after two years for a late penalty fee, to be decided by the Board of Directors, for up to an additional 6 months.
12. **REGISTRATION FEES:** CURRENT LITTER REGISTRATION FEE IS **\$75 BKC Members (\$90 Non BKC Members)**, with an additional **\$27 for BKC Members (\$32 Non BKC Members)** payable for REGISTRATION (including TRANSFER OF OWNERSHIP with application) of **EACH INDIVIDUAL DOG** out of the litter. The owner at the time of birth is required to pay the **Fees for Registration of the Individual Dogs at the time of Registration of the Litter**
13. Fees are subject to change without notice.
